PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building web and mobile products — from freelance client work to multi-tenant SaaS. At Yamama Software I work across the stack on GlooFloo, a bilingual AI-powered project and portfolio management platform (React web app, Node.js/PostgreSQL API, Flutter mobile app), and contribute to Rawaylo, an AI customer-service platform in development. I take features from requirements to production with tests, and support the business side with product documents, demos and proposals.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Dart, SQL, HTML5, CSS3
Frontend: React 19, Next.js 13–16, TanStack (Start, Router, Query), Redux Toolkit, Zustand, Tailwind CSS v4, Radix UI / shadcn/ui, Framer Motion, GSAP, React Hook Form + Zod, i18n & RTL
Backend: Node.js, Hono, Express, REST APIs, PostgreSQL (row-level security, pgvector), Drizzle ORM, Supabase, Better Auth (SSO, passkeys), NATS JetStream, S3 storage
Mobile: Flutter, Riverpod, Drift (offline-first), go_router, Firebase Cloud Messaging, RevenueCat in-app subscriptions
AI: LLM integration (Claude, Gemini), tool-calling assistants, model routing & budget guards, MCP servers, voice pipelines (speech-to-text → LLM → text-to-speech)
Payments & Auth: Moyasar, Paymob, Stripe, HMAC webhook verification, JWT, OAuth
Quality & Tools: Vitest, Playwright, axe accessibility, Lighthouse CI, Flutter tests, Git, GitHub Actions, Docker, Vercel, Jira, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer
Yamama Software | Aug 2026 – Present

- **GlooFloo** (gloofloo.com) — AI-powered project & portfolio management SaaS in Arabic and English: deliver features end to end across the React/TanStack web app and the Hono + PostgreSQL API — migrations, multi-tenant row-level security, UI and tests — through reviewed pull requests with QA and DevOps.
- Built AI assistant features: tool calling over product actions, Claude model routing by task with a monthly budget guard, and credit charging based on the actions actually performed.
- Building the GlooFloo Flutter app (iOS & Android) toward its v1.0 store release with web parity: Kanban board, Gantt timeline, calendar, files, AI assistant, push notifications and in-app subscriptions.
- **Rawaylo** (in development) — AI customer-service platform: conversation inbox with human handoff, billing, a voice-agent pipeline for Egyptian Arabic, and a restaurant edition built on Odoo.
- Supported business and sales: product requirement documents, client presentation deck and demo videos, pricing and cost analysis, and technical input for enterprise proposals.

Frontend Developer
VClasses | Cairo, Egypt | Oct 2025 – Jul 2026

- Built a Next.js 15 multi-tenant educational platform with TypeScript, Tailwind CSS v4 and next-intl (Arabic/English, RTL).
- Engineered ISR cache invalidation, a multi-landing-page switching system and CSS custom-property theming from Figma designs.
- Integrated TanStack Query 5 + Redux for the API data layer; achieved 90+ Lighthouse scores and ~40% faster load times.

Freelance Frontend Developer
Self-Employed | Remote | Sep 2023 – Sep 2025

- Delivered 10+ client projects — e-commerce platforms, 3D web experiences, landing pages — with authentication, payments and CI/CD on Vercel and Netlify; about 80% of clients returned with repeat work.

Frontend Developer Intern
Digitalize for Business Services | Cairo, Egypt | Mar 2024 – Aug 2024

- Developed a reusable React/TypeScript UI component library in a 5-person Agile team; contributed to code reviews and rendering-performance improvements.

KEY PROJECTS

ShiftSouq — Full-Stack E-Commerce Platform — *Next.js 16, React 19, Supabase, Paymob, Tailwind v4, Zustand, Zod* ↗ **GitHub**

- Bilingual (AR/EN, RTL) store with Supabase PostgreSQL + RLS, an admin dashboard for products and inventory, and Paymob payments (card + mobile wallet) with HMAC webhook verification.

تراتيل (Taratil) — Islamic PWA — *Vanilla JS (ES6+), Service Workers, PWA* ↗ **GitHub**

- Offline-first Quran reader (600 pages) with audio sync, Azkar counters and a custom stale-while-revalidate cache; installable on iOS, Android and desktop, 90+ Lighthouse score.

EDUCATION

B.Sc. Computer Science — Information Systems | *Helwan University, Cairo* | *2017 – 2021*
Graduation Project: Antique Auction App — Grade: Excellent
